

# Ring Sizer Guide

This guide is to be used with an existing ring to find out your ring size.

For greatest accuracy use a ring with a similar band width and style to that you want to buy.

## Step 1

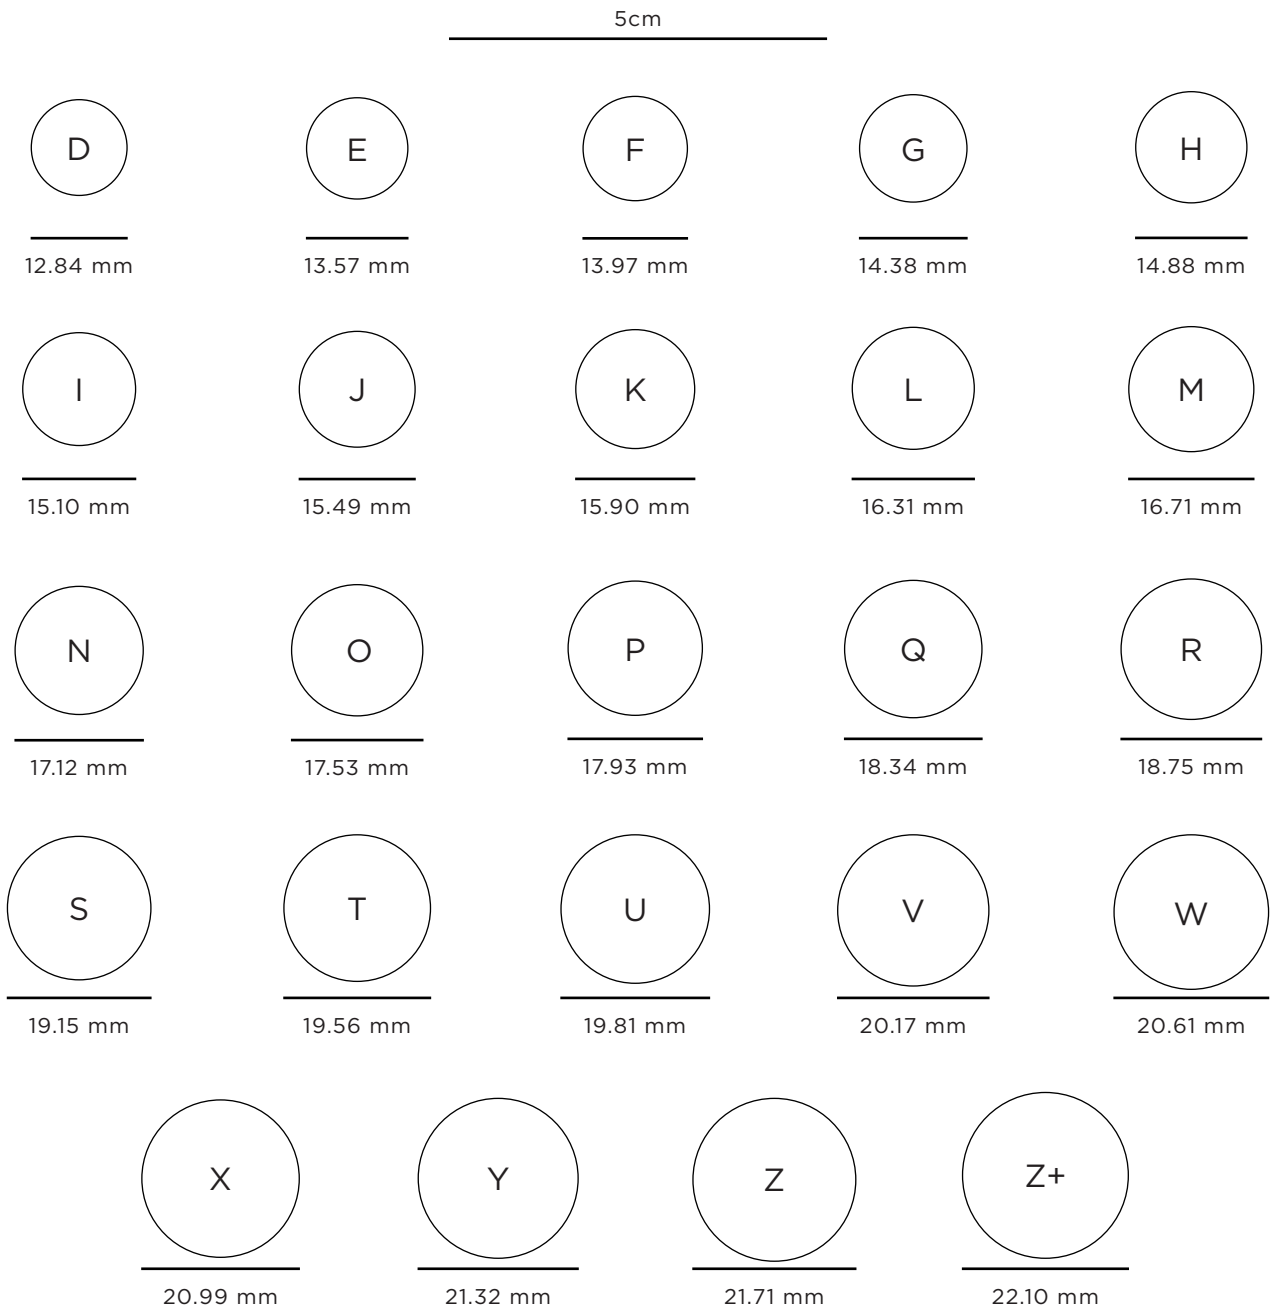

Print this document out to 100% - ensure that page scaling is set to 'none' on the printing dialogue box. Check the printed size by measuring the line below. It should be exactly 5cm.

## Step 3

Place your ring on the chart below and match the inside edge of the ring to the circle nearest in size.

## Step 3

The letter that fits best within the circle, is your ring size. If the ring falls somewhere between two sizes you should always opt for the larger size.
